BizPaL Online Business Permits and Licences

Ever thought of starting your own business? **BizPaL** is an innovative online service that provides entrepreneurs with simplified access to federal, provincial/territorial and participating municipal government information about business permits, licences and other requirements needed to start, operate and grow their business.

Visit the Business Centre on our website to try it out, you won't be disappointed.

Flood Preparedness

Are you prepared for flooding? Do you have sand bags to protect ground level windows and doors, a generator to power your sump pump, and are items near your shoreline secured? For tips on flood preparedness, visit our website.

Payments

Did you know that tax payments are always due the 1st Monday of **March, May, and October** and the 2nd Monday in **August**?

Online payments and pre-authorized payment (PAP) plans help you coordinate your payments at no additional charge. Our monthly plan is 11 months, so there is no withdrawal in December.

Payments cannot be made by credit card.

Calling 911

If you call 911 by mistake, please stay on the line and explain the mistake to the dispatcher. This will ensure that your call is treated accordingly and resources can be properly managed. **Do not program 911 into your speed dial.**

Did You Know...

- If you demolish a structure you have to file an application with the Finance Department in order for your property's current value assessment to reflect the change.
- Any improvement or addition to your property will increase the current value assessment. Taxes can be levied on this new value for the **current year and 2 years prior**. Keep this in mind when budgeting after an improvement or an addition.
- The **Municipal Property Assessment Corporation (MPAC)** provides the Township with the assessed value of your property for tax billing purposes. Visit their website for more information: www.mpac.ca
- **Dog Licencing** - all dog owners are required to purchase and keep their dog tags current.
- **Move right for the green light.** Help our volunteer firefighters - please pull over when you see a flashing green light.

Just A Click Away...
