## Areas of Focus

### Goal: Policy Development

1. **AODA Regulations** – continue to implement specific components to meet compliance deadlines and review and comment on any updates

   - AODA compliance report – Township of Selwyn -submitted

2. **Lakefield Parking By-law** - Review of Designated Disabled Parking Provisions and consider increasing set fines for set fines for violations of parking in designated disabled parking spaces and bring forward recommendation to Council

   - Research completed. The existing Lakefield Parking By-law is from 1988 and is currently enforced by Peterborough Police through their contract and based on the service’s history. An entirely new Parking By-law would be required and jurisdiction over some roadways is now vested with the County of Peterborough (e.g. Bridge, Queen and portions of Water Street, etc...). A new By-law would have to incorporate some type of County approval. In addition, if a new By-law was passed an application to the Ontario Court of Justice (fine approval) and by Ministry of the Attorney General (wording approval) would need to be completed. The current By-law does have fines for illegal parking in an accessible space. Although the fine is low, the AAC was satisfied that some type of fine was important as a deterrence given the potential constraints and issues that may arise if a new By-law was to be developed. The AAC agreed that the status quo (current 1988 Parking By-law) for Lakefield remain as is and that the police continue to utilize the current fining system as well as awareness flyer that was created by the AAC to advise those who park illegally on an accessible space on the impacts to those with a disability.

3. **County of Peterborough Parking By-law updates** - review accessible on-street parking spaces in Township for conformity/inclusion in the County By-law – review in conjunction with Lakefield Parking By-law

   - Add to Year 15 Work Plan
