Lakefield Celebrated its 21st Annual Jazz, Art & Craft Festival This Past Weekend

The 21st annual Lakefield Jazz, Art & Craft Festival went off without a hitch this weekend!

People enjoyed a beautiful day next to the Otonabee River at Isabel Morris Park while listening to live music, shopping at local vendors and eating up fantastic food.

We were so happy we got to be a part of this fantastic event again this year.

Check out our photos from the event below!

**DOWN TO EARTH: YOGA IN ISABEL MORRIS PARK**

The Little Expedition Company is hosting a yoga fundraiser for The Down Syndrome Association of Peterborough’s annual summer school. The school is looking for new educational materials to build on their collection.

They're holding [Down to Earth: Yoga in the Park at Isabel Morris Park](#) in Lakefield on Sunday, July 14th from 9 a.m. - 12 p.m.

Tickets are $25 and available at the DSAP office at 300 Sunset Blvd, Peterborough or by ordering through littleexpedition@gmail.com.
SUNDAY DRIVE: REUNION

Sunday Drive is returning to Lakefield with this immersive art show revealing a unique discovery on an artist's farm.

Sunday Drive is once again exposing audiences to art in unexpected places, presenting contemporary art in a picturesque rural setting. Returning with a new show format, in a new town, Sunday Drive will present REUNION, an immersive art experience on a private farm just outside of Peterborough in Douro-Dummer, running Friday and Saturday evenings in August 2019.

"Working with a private farm presented some challenges to presenting a public event. Simple facilities like parking were not available so Sunday Drive incorporated solutions into the format of the show itself. For example, the show begins in Lakefield where a bus, hosted by the farm’s owners, is waiting to take visitors to REUNION, ten minutes away. “This short ride provides time for us to give visitors the full backstory of how REUNION came to be, to meet the artists who own the farm and deepen the experience they are about to have,” explains Tania Thompson, Sunday Drive’s creative director.

You can buy tickets here.

For more information visit www.sundaydrive.org or call 416-985-3369.

TRUSTWORTHY AI: WHY THE OECD’S RECOMMENDATION ON ARTIFICIAL INTELLIGENCE MATTERS
ARTICLE BY THE CANADIAN CHAMBER OF COMMERCE

Artificial intelligence (AI) has significant potential to solve complex problems in communities and sectors around the world. At the same time, it brings forward numerous risks, like bias in automated decision making, that create challenges for government, businesses, employees and individuals at home and abroad.

At the May 2019 OECD Ministerial, the recommendation of the Council on AI was formally adopted. It is the first international standard for AI policies. OECD recommendations are non-binding but are influential statements that frequently form the basis of international standards and the design of national legislation.

Lessons in Reconciliation - What We Heard in Saskatoon

Earlier this year, the Canadian Chamber of Commerce sat down with business and Indigenous leaders in Saskatoon to hear what they had to say regarding reconciliation, what it means to them, their communities and their businesses.

"A great deal has been said recently about reconciliation with Indigenous peoples. Businesses and Indigenous peoples will not wait, and do not need to be led by government in moving forward with reconciliation and the actions that make it meaningful. In many instances they have long been living reconciliation day-to-day, providing lessons from which government – and all of us - can learn." Read the full report.
