Re: Stage 1 and 2 Archaeological Assessment of Lovesick Lake Trailer Park, Part Lots 43 and 44, Concession 10, Township of Smith

This letter is to confirm that Northeastern Archaeological Associates Ltd. completed an additional Stage 2 archaeological field assessment part of the property as captioned above at Lovesick Lake Trailer Park. We found no archaeological materials at all during our Stage 2 field assessment which was completed by December 12, 2023 (see attached assessment methodology map). This work was directly contiguous to a development area assessed by Earthworks Archaeology in 2014 which also reported finding no archaeological materials and was cleared by our regulating Ministry. During our field work we engaged with Alderville First Nation and had one archaeological liaison working with us. Please contact Julie Kapyrka, Archaeological Co-ordinator at Alderville First Nation should you wish any information on this. We will be recommending clearance of the property in our Stage 1 and 2 report to the Ministry of Citizenship and Multiculturalism. Our report should be ready in about 6 weeks time. If you have any questions, please feel free to contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read 'L. Jackson', with a long horizontal flourish extending to the right.

Lawrence Jackson, Ph.D.

President
